

An Spreac Gaelac, The Gaelic Spark, is intended to be a light both of spirit and vision. It is a light shown by the Gael to be seen by the Gael.

Those who write for it have some special knowledge of or interest in the Gael and Gaelic life. The material presented is assembled under the direction of the New York Gaelic Society, Cumann Na Gaeilge. The primary interest of this society is to spread the knowledge and appreciation of the Irish language and through this and other mediums to further the true culture of Ireland. The surest path to such an end is through knowledge and understanding. It is fervently hoped that An Spreac Gaelac will show the way.
